

Randall McCathren has worked for Normand PLLC as an expert witness and litigation consultant on numerous cases, including but not limited to *In Re Geico General Insurance Company Total Loss Litigation Case No. 4:19-cv-03768-HSG, 2023 WL 2535591 (N.D. Cal.)* and *Sos v. State Farm Mutual Automobile Insurance Company Case No. 6:17-cv-00890-PGB-LHP (M.D. Fla.)*, which resulted in notable settlements (In Re Geico - the Court approved a \$6.2 million cash benefit to the class and an additional \$4.8 million in estimated value from prospective relief; Sos – final judgment awarding full damages of over \$5.3 million to a class of less than 4,000 insureds, and which concerned leased-vehicle total-loss insureds alleging failure to pay sales tax and title transfer fees).

McCathren's technical knowledge in the automotive, consumer finance and insurance industries is second to none. He is creative in developing new legal theories and responses to legal issues. I would wholeheartedly recommend him to any firm or individual searching for an expert witness in these subject areas.
